our,

The third Circuit Court of Appeals denied the objectors request for the Court to reconsider their appeal. The only option left now to the Settlement is a possible application to the United States Supreme Court. As the "NFL concussion litigation" matter moves through this appeal process I continue to receive calls from retired players inquiring about the timeline with regard to benefits being available. I anticipate that if the objectors make application to the United States Supreme Court and if that appeal is denied, the litigation process could begin as soon as early fall of this year. Even if the matter does become final by early fall, the medical and financial Claim Administrators will have several months to finalize the process for medical evaluations and financial awards until any baseline examinations or financial payments are distributed to players.

In response to questions about the timeline, the second most frequently asked question that I have been receiving from players has to do with when can they receive money now. I do not recommend dealing with traditional funding companies as their rates are often times very high. The only financial solution that I have come across is a product known as "The NFL Concussion Advance Product". If you are in need of financial resources now, you may want to take a look at the below information and if interested call the Company for more information. They can be reached directly by calling [267-227-4810](tel:267-227-4810).

So, if you have any questions in regard to the Concussion Settlement or related issues, please do not hesitate to contact my office at [356-427-9000](tel:356-427-9000) or by email at [nfl@mitnicklegal.com](mailto:nfl@mitnicklegal.com). ### Concussion Advance Product

For players that have a current diagnosis and cannot afford to wait any longer for their award, Thrivest Specialty Funding has the solution. Thrivest offers an alternative to the high priced lenders that you may have read about recently. All players who currently have a diagnosis or anticipate a pending diagnosis can take advantage of Thrivest's NFL Concussion Advance Product.

With your projected award amount you can receive the money you need now; \$25,000, \$50,000, \$100,000 or more. There is a one-time transaction fee associated with each advance. That fee is paid for with part of the advance amount, so that there is no out of pocket cost to the applicant. When your award finally does distribute, Thrivest will be due the amount they purchased (what you

plus a small monthly rate, 1.58%, for the number of months it takes to collect. That rate equals 19% annualized, compounded. That is less than most credit card rates.

Here are some examples based on different purchase amounts:

If you need \$25,000 now:

THRIVEST will purchase \$25,000 of the player's award and will advance the player \$25,000.  
If the award distributes in one year Thrivest will be paid \$30,186.27 directly by your attorney.  
If the award distributes in 18 months Thrivest will be paid \$33,169.91 directly by your attorney.  
If the award distributes in two years Thrivest will be paid \$36,448.45 directly by your attorney.

If you need \$50,000 now:

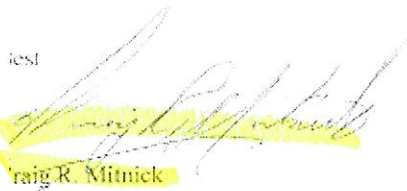

THRIVEST will purchase \$50,000 of the player's award and will advance the player \$50,000.  
If the award distributes in one year Thrivest will be paid \$60,372.55 directly by your attorney.  
If the award distributes in 18 months Thrivest will be paid \$66,339.82 directly by your attorney.  
If the award distributes in two years Thrivest will be paid \$72,896.90 directly by your attorney.

If you need \$100,000 now:

THRIVEST will purchase \$100,000 of the player's award and will advance the player \$100,000.  
If the award distributes in one year Thrivest will be paid \$120,745.10 directly by your attorney.  
If the award distributes in 18 months Thrivest will be paid \$132,679.64 directly by your attorney.
